SKILLS

- **Languages:** C++, C, Java, Python, R
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MS Excel, Tableau, MySQL, Ubuntu
- **Soft Skills:** Problem-Solving Skills, Leadership, Project Management, Adaptability, Creativity, Attention to Details

INTERNSHIP

- **Data Science Internship – Code Alpha:** Since Feb 2025
About: Currently gaining valuable experience through a Data Science Internship, diving into data analytics, machine learning, and statistical modeling. Working alongside industry experts to handle large datasets, extract insights, and transform raw information into actionable intelligence
Tech: R, Python

PROJECTS

- **Customer Complaint Dashboard:** October 25, 2024 – November 20, 2024
Objective: Created a real-time, interactive Customer Complaint Dashboard in Tableau to visualize key metrics such as complaint volume, resolution time, and customer sentiment, enabling better decision-making
Tech: Utilized Data Grouping, Dynamic Filtering, Heat Maps, KPI Indicators, and Interactive Dashboards in Tableau for comprehensive data analysis and visualization
Outcomes: Enabled quick issue resolution, tracked team performance, and supported continuous improvement through real-time data updates and detailed insights into complaint categories and regions
- **Predictive Analysis Dashboard – Model Comparison Tool:** November 12, 2024 – November 25, 2024
Objective: Developed an interactive R Shiny dashboard to compare the accuracy of machine learning models (KNN, Decision Trees, Naive Bayes, and ANN) applied to the Iris dataset for classification tasks
Tech: Utilized R, Shiny, caret, class, rpart, e1071, neuralnet, and ggplot2 for model development, visualization, and performance comparison
Outcomes: Enabled dynamic model switching and real-time accuracy comparison, enhancing the understanding of model performance

TRAINING

- **Summer Training – Data Structures and Algorithms:** June 10, 2024 – July 22, 2024
About: Completed an intensive training program focused on Data Structures and Algorithms (DSA), covering key concepts such as arrays, linked lists, stacks, queues, trees, graphs, dynamic programming, and sorting/searching algorithms. Implemented various problem-solving techniques to enhance algorithmic efficiency.
Tech: C++, Java, Python, Data Structures And Algorithms

CERTIFICATES

- Mastering Data Structures And Algorithms using C & C++ – Udemy 14 Nov 2023
- Programming in C++ – Coursera 2 Feb 2024
- Excel Skills for Data Analytics and Visualization – Coursera 23 Apr 2024
- Data Structures and Algorithms using Python – CSE Pathshala 25 Jul 2024
- Data Analysis with Tableau – Coursera 18 Nov 2024
- Supervised Machine Learning: Regression and Classification – Coursera 20 Nov 2024

EXTRA CURRICULAR ACTIVITIES

- Participated in many hackathons
- Organized Sports Mania Event

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.00** Since August 2022
- **Divine Public School** Mohanpur, UP
Intermediate; **Percentage: 86.2%** April 2021 - March 2022
- **Divine Public School** Mohanpur, UP
Matriculation; **Percentage: 90%** April 2019 - March 2020
